# INCREASE PRODUCTION OF FOOD

FOOD HURRIED VICTORY but as producers of food crops we have not finished our task. The world is hungry, due to European stoppage of farming, destruction of farm lands, buildings and implements; hence we must not slacken our efforts, as it would be a sad world indeed should we experience a year of crop failures.

You will find us PREPARED with carefully saved and accurately tested seeds to assist you in this duty of production. SATISFACTORY SERVICE RENDERED for over 50 years has made us many friends, and by their confidence place at your service today one of the largest and most complete GRAIN, FEED, SEED AND FARM IMPLEMENT establishments in the State.

There is again a scarcity of many varieties of seeds, but not so serious as last season, hence we urge you once more to send in your assorted orders just as early as possible.

Poultry as Food has proven its great value as a quick, economical and abundant producer. Our service for furnishing Supplies in this department is of the highest character, as we carry extensive stocks. In spite of the many difficulties due to war conditions, we came through the past season much more satisfactorily than we expected and we intend to serve you better during 1919.

With appreciation for the confidence and good will favored us in the past, and with hopes for even more co-operation in the future, we take pleasure in placing this catalog in your hands.

Very sincerely yours,

TAYLOR BROTHERS

**TABLE AND DAIRY SALT**

Buy salt from us and you will get the best at the lowest prices. The Wigwam ranks very high and we would be very glad to quote prices in any quantity.

**Wigwam Brand** is a high grade, granulated vacuum process salt, especially refined for dairy cooking, baking and table use, is strictly pure, sparkles like a diamond, the result of perfect crystallization, makes a brine as clear as crystal and will not harden in any climate.

**Ground Salt** (coarse grain) is the first product of evaporators and is a coarser grain than Perfection Brand. It is preferred by packers for pickling meats, etc.

**Agricultural Salt** is grades that have become discolored or dirty. It is used for fertilizing and for any purpose where quality is not essential. (We do not guarantee the quality of Agricultural Salt.)

**Mineral Salt** is white, bright, sparkling and clear (almost chemically pure). Used for packing meats, freezing ice cream, refrigeration, charging ice machines, pickling, salting hides and skins, and feeding horses, cattle and sheep.

**Turk's Island Salt.** Genuine article.

# 1865—OUR FACILITIES—1919

WE feel that your success is very close to ours, therefore we are making it our fixed duty to give you every service and protection possible. We exercise the utmost care in filling orders, always striving to do a little more than we offer; yet in the press of business, errors sometimes occur, in which event we wish to be promptly notified of the facts, and will make such corrections as will be satisfactory. It is impossible, of course, in a book of this size to give but a faint idea of the size and magnitude of our different plants. See our elevator and warehouse at Cooper's Point, together with its platform for loading outgoing freight. Nine cars can be loaded there at one time, and seven more on the adjoining track. In addition we have facilities for unloading nine cars of bulk and sacked grain and feed on the north side of the elevator and warehouse.

We again call your attention to our building at Front and Market Streets, every floor of which is stored with an immense stock of goods. Our salesroom is on the first floor of this building, and our general offices on the second floor. This business of ours—its enormous stock and wide assortment, is for your benefit. Call, write or 'phone us; we are always at your service.
